Statement on Department of Health and Human Services Action on Federal Services for People With Limited English Proficiency

August 30, 2000

Today I commend the U.S. Department of Health and Human Services (HHS) for being the first Federal agency to respond to Executive Order 13166, which will help people with limited English proficiency (LEP) access Federal and federally funded services. The HHS policy guidance issued today will assist health and social service providers to ensure that LEP individuals can access critical health and social services, and will assist our efforts to eliminate health disparities between LEP and English-speaking individuals. The guidance outlines the legal responsibilities of providers who assist people with limited English proficiency and receive Federal financial assistance from HHS and provides a flexible roadmap to assist those providers in their efforts to meet the language needs of the Nation's increasingly diverse population.

On August 11, 2000, I issued Executive Order 13166, which directed Federal agencies, by De-

cember 11, 2000, to establish written policies on the language accessibility of their programs and the programs of those who receive Federal funds. Federal agencies and recipients of Federal financial assistance must take reasonable steps to ensure that persons with limited English proficiency can meaningfully access their programs. Language barriers are preventing the Federal Government and recipients of Federal financial assistance from effectively serving a large number of people in this country who are eligible to participate in their programs. Failure to systematically confront language barriers can lead to unequal access to Federal benefits based on national origin and can harm the mission of Federal agencies. Breaking down these barriers will allow individuals with limited English proficiency to fully participate in American society.

Letter to Congressional Leaders Transmitting a Report on Digital Computer Exports

August 30, 2000

Dear _____:

In accordance with the provisions of section 1211(d) of the National Defense Authorization Act for Fiscal Year 1998 (Public Law 105-85) (the "Act"), I hereby notify you of my decision to establish a new level for the notification procedure for digital computers set forth in section 1211(a) of the Act. The new level will be 28,000 Millions of Theoretical Operations per Second (MTOPS). In accordance with the provisions of

section 1211(e), I hereby notify you of my decision to remove Estonia from the list of countries covered under section 1211(b). The attached report provides the rationale supporting these decisions and fulfills the requirements of sections 1211(d) and (e) of the Act. I have made these changes based on the recommendation of the Departments of Defense, Commerce, State, and Energy.

Section 1211(d) provides that any adjustment to the control level described in 1211(a) cannot take effect until 180 days after receipt of this report by the Congress. Section 1211(e) provides that the removal of a country from the group of countries covered by section 1211(b) cannot take effect until 120 days after the Congress is notified. Given the rapid pace of technological change in the information technology industry, I believe these time periods are too long. I hope that we can work together to reduce both notification periods to 30 days.

I have also directed the Secretary of Commerce to adjust the licensing requirements for Tier 2 and Tier 3 countries. The new level above which an individual license will be required for exports to Tier 2 countries is 45,000 MTOPS. In addition, I have decided to implement a single licensing level for Tier 3: the new level above which an individual license will

be required for exports to Tier 3 countries is 28,000 MTOPS. The aforementioned licensing adjustments will take place immediately.

I look forward to working cooperatively with the Congress on these issues.

Sincerely,

WILLIAM J. CLINTON
